

eCellar™ Compliance and Shipping Gateway Manager

Simplify the complex world of wine shipping compliance by bringing sales and compliance software together in one easy-to-use integrated tool.

Feature

Benefit

Integrated with ShipCompliant™ technology	Gives users powerful compliance and shipping management tools within eCellar eliminated the need to be operating in multiple systems – sale through fulfillment in ONE system.
Real-time address validation and compliance checks at Point of Sale	Improves tasting room efficiency, improves customer service, and ensures compliance.
Single click to ship wine via fulfillment	Streamlined order processing and eliminates duplicate steps and potential errors even on the busiest tasting room days.
eCellar Compliance & Shipping Dashboard	Provides immediate display of pending problem orders and displays links to these orders within eCellar and ShipCompliant™ for faster resolution so the orders get corrected and shipped.
Updated order tracking information uploaded every hour	Provides current shipping information to facilitate shipping notification and improve customer service.
